## **Overviews**

More and more children play tablets / phones for fun, obsess with a variety of games and entertainment, and also learn knowledge. However, kids still lack the ability to control their behavior and identify positive contents, being obsessive with tablet may have negative effects on kids' physical and psychological development.

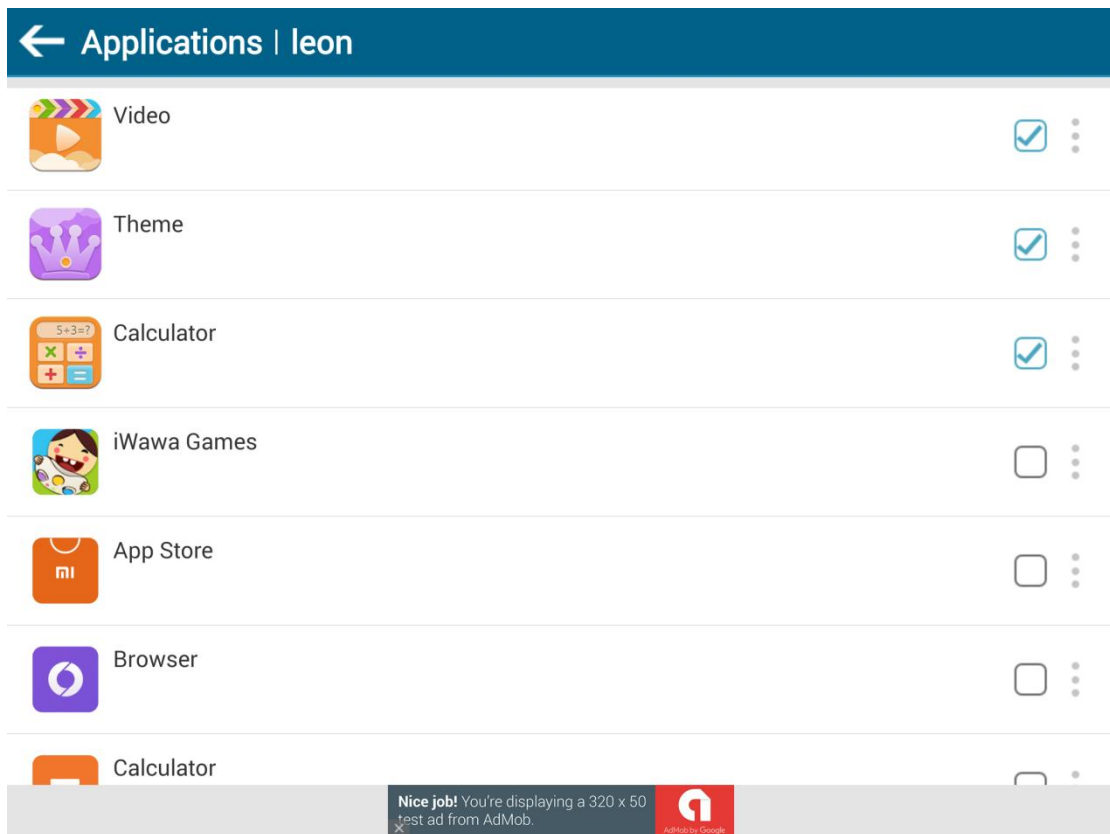

Home is oriented to security, healthy content and easy management, and behavior limit, focusing on establishing secure environment for kids, blocking hazards, making parent be reassured about kids network environment.

## **Security Control**

Separating contents which are not suitable for children and protecting kids' physical and psychological growth, parents can filter the contents which need to be blocked.

### **1、 Applications Filter**

Select appropriate applications for kids, and block inappropriate contents like bloody and violent content. Only selected applications will be showed up in children's desktop.

## 2、 Websites Filtering

When children use the Internet browser, it will automatically block the websites without parental permission.

## Content and Management

Provide children with rich applications resources, and use tools to manage applications, video, music and other content.

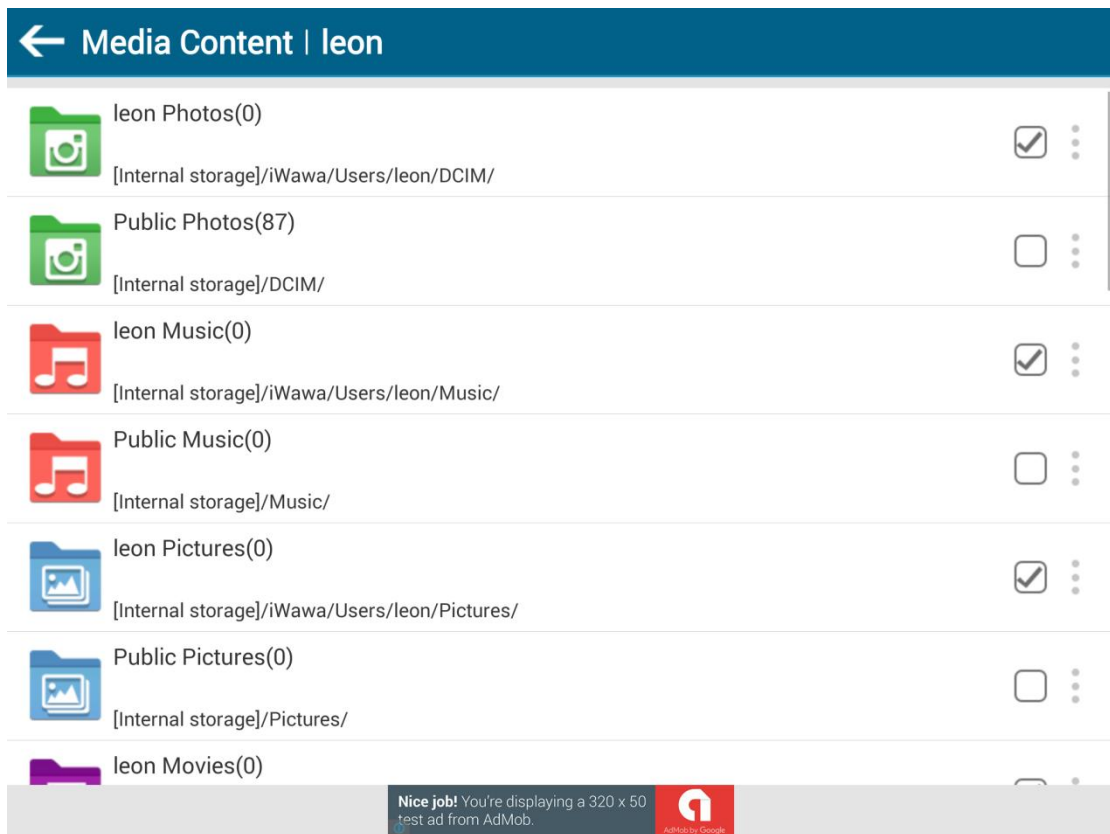

### 1、 Applications Recommendation

Recommend with educational games and other applications which are suitable for kids. Recommended content is regularly updated and can be downloaded for free.

## 2、Multimedia Management

Children can open "Video" application in the children desktop and see all good movies selected by parents; similarly, children can open the "Gallery" and "Music" application and see pictures and listen to songs which are previously prepared.

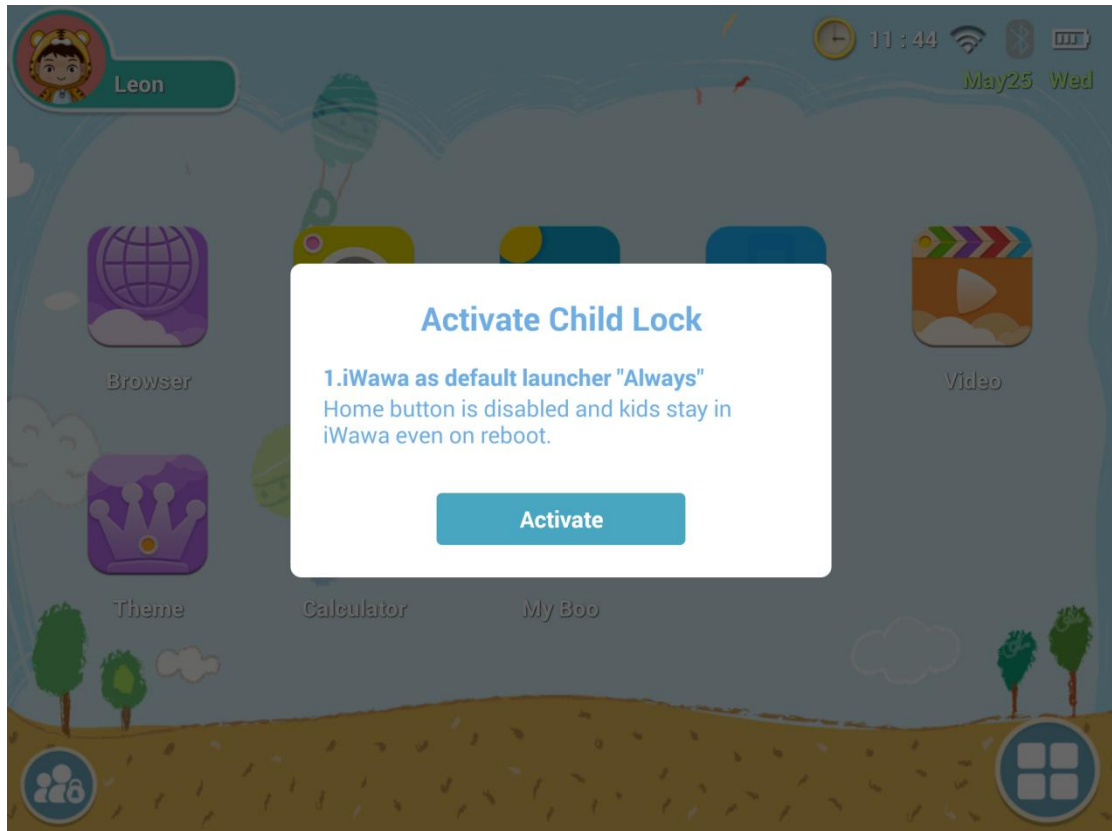

## Behavior Restrictions

Restrict kids' behavior by Veidoo, kids can not disturb the parents' desktop any more, unexpected consumption and games addiction could be effectively avoided.

### 1、 Child Lock

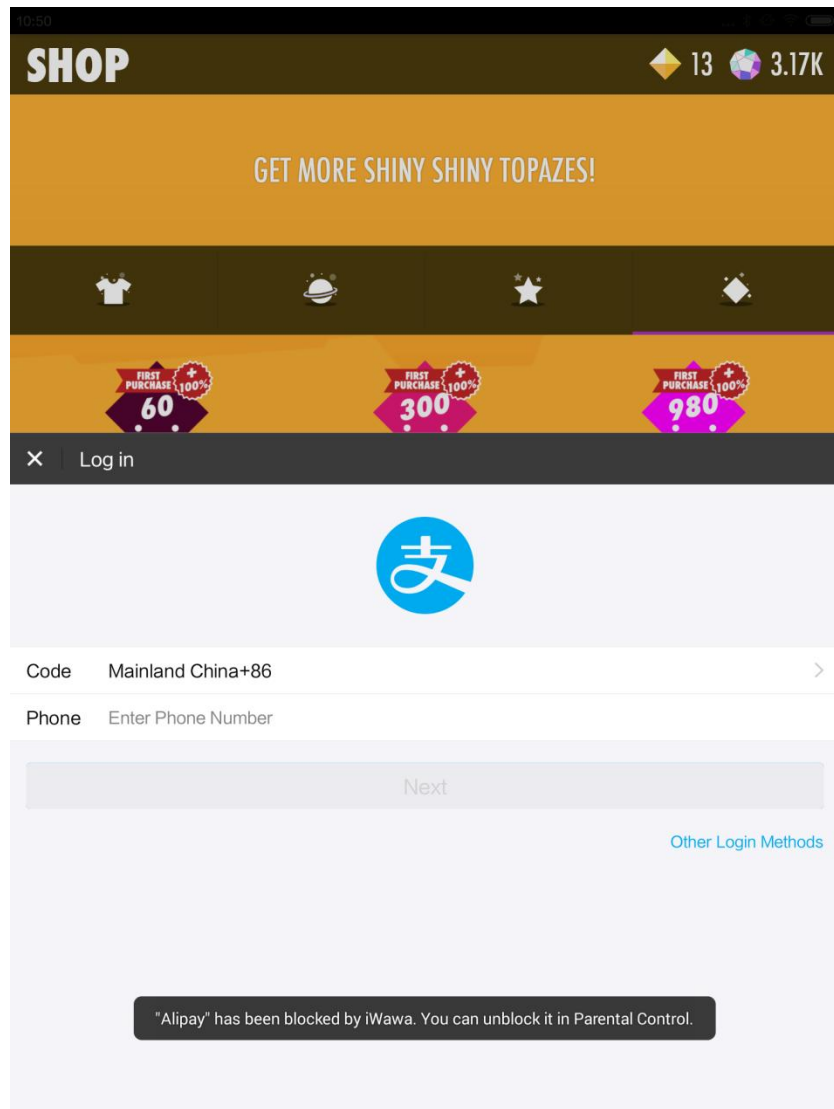

Without permission of parents, children will not be able to exit the child desktop. Not only ensure that kids stay in a safe environment, but also ensure that kids do not have access to parents' desktop applications.

## 2、 Consumption Restraint

All purchases require parents` confirmation by entering the password. Prevent kids` unexpected consumption from clicking wrong buttons.

### 3、Time Limit

Parents can set a timetable for kids to use tablet and have a break time. It will automatically be transferred to break time when time is up, and tablet is temporarily unusable. It is flexible to protect the kids' growing environment.
